

# Tyler Langties

Senior Software Engineer / Frontend & Platform Specialist  
Tampa, FL • [tylerlangties@gmail.com](mailto:tylerlangties@gmail.com) • [github.com/tylerlangties](https://github.com/tylerlangties)

---

## Professional Summary

Senior Software Engineer with **6+ years of experience** building and scaling enterprise web applications used by **500K+ users**. Strong focus on React and Vue with solid backend experience in Node.js and Python.

Actively leveraging **AI-augmented and agentic workflows** to improve developer velocity, automate analysis, and raise overall code quality.

---

## Core Skills

- **Frontend:** React, Vue, TypeScript, JavaScript (ESNext)
  - **Backend:** Node.js, Python, Django, FastAPI
  - **Architecture:** Frontend architecture, component libraries, design systems, performance optimization
  - **DevOps & Tooling:** CI/CD, deployments, Git, documentation, DX improvements
  - **AI & Automation:** Agentic AI workflows, LLM-assisted development, prompt engineering, AI tooling (Cursor, OpenCode, Claude, Copilot)
- 

## Professional Experience

### Senior Software Engineer

**DXC Technology – Tampa, FL**

*Jan 2022 – Present*

- Built and maintained **large-scale Vue.js applications** serving **500K+ users**, shipping core product features and iterative improvements.
- Delivered features across the stack using **React, Vue, Node.js, and Python**.
- Led **frontend architecture decisions**, aligning patterns and best practices across multiple product teams.
- Owned **deployment pipelines** and technical documentation for multiple applications and clients.
- Currently delivering **full-stack React + Django solutions** for dozens of enterprise clients across multiple products.

*Tech:* React, Vue, Node.js, Python, Django

---

## **Software Engineer**

**DXC Technology – Tampa, FL**

*Aug 2019 – Jan 2022*

- Contributed to enterprise web applications using **React, Vue, Node.js, and Python**.
- Progressed from feature delivery to **owning key application areas**.
- Advised on frontend architecture and improved reuse across teams.

*Tech: React, Vue, Node.js, Python*

---

## **Software Engineer**

**Steel Supplements – Sarasota, FL**

*May 2019 – Aug 2019*

- Built applications and automation for **e-commerce and internal tooling**.
- Improved **application performance and accessibility**.
- Established version control practices and frontend documentation.

*Tech: JavaScript, React, Liquid, Ruby*

---

## **AI & Agentic Development**

- Hands-on experience using AI tools to accelerate development, refactoring, testing, and documentation.
- Design and apply **agentic workflows** for prototyping, architectural exploration, and automated code improvements.
- Strong engineering judgment when integrating AI into production workflows.
